

Libraries

Seabear

OK, the whole song is the same chords throughout pretty much

G **Em** **Am** **C**

G **Em**

Fall down the stairs

Am **C**

It s been a long time since

G **Em**

I got my hands on your teenage poems

Am **C**

It s the only poison that I like

I m throwing rocks at broken windows
Picking locks with footprints from the snow

And I don t believe you live in a library
(That sails the sea)
Sleeping with a book-blanket out at sea
(like the girls told me)

My little bird flew away from me
She made her home in a poor country

You re breaking branches
on your way down
Just some one new
to throw your arms around

The next time I wake up, I want it to be
In a rabbit hole to the sound of you
(making coffee)
With the warm, salty sea
Its waves crashing over me

Look what you ve done
You punched a hole in the sun
(Now it won t shine)

Look what you ve done
You punched a hole in the sun
(How did you know it was I?)

Look what you ve done
You punched a hole in the sun
And now it won t shine for anyone
