

We Cant Be Friends
Seabird

We Cant Be Friends By Seabird

Tabbed by: JonoNorton

Its a pretty easy song. I play it with power chords (which sounds the best) but you could possibly play it with open chords.

Intro: **Em, C, G, D**

This is the start of the end

This is a start of a mess

I don t think we should pretend

That this is anything less than over

C (ONE STRUM)

Let me make it crystal clear

G

We can t be friends

B

We can t be friends

Em

You did what you did

C

And I said what I said

G

Already told you

B

Don t wanna know you anymore

Em

So get it through your head

C

We can t be friends

Stop trying so hard

Were so much better apart

You can t just rip out my heart

And then just keep going on like we re not over

C (ONE STRUM)

Let me make it crystal clear

G

We can t be friends

B

We can t be friends

Em

You did what you did

C

And I said what I said

G

Already told you

B

Don t wanna know you anymore

Em

So get it through your head

C

We can t be friends

G

I wish I could erase my memories

B

Said I never had it in me

Em

D

Swear I ll find a way to move along

G

You may as well erase my number

B

I already burned your letters

Em

D

Find enough of you when you are gone

G

We can t be friends

B

We can t be friends

Em

You did what you did

C

And I said what I said

G

Already told you

B

Don t wanna know you anymore

Em

So get it through your head

G

We can t be friends

B

We can t be friends

Em

You did what you did

C

And I said what I said

G

Already told you

B

Don t wanna know you anymore

Em

So get it through your head

C

We can t be friends

Enjoy :)
