Ε
                  G#m
The birds have left their trees the light pours onto me...
                      G#m
                          F#
I can feel you lying there all on your own...
We got here in the hard way
     G#m
All those words that we exchanged
                 G#m
                     F#
Is it any wonder things get dark?
C#m
Cause in my heart and in my head
I ll never take back the things I said
        F#
So high above, I feel it coming down
     C#m
She said in my heart and in my head
```

```
Ε
Tell me why this has to end
  G#m
       F#
Oh no, oh no
                 G#m
I can t save us, my Atlantis, we fall
We built this town on shaky ground
I can t save us, my Atlantis, oh no
We built it up to put it down
Ε
                             G#m
Now all the birds have fled, the hurt just leaves me scared
                            G#m
Losing everything I ve ever known...
                          G#m
It s all become too much, maybe I m not built for love
                                         G#m F#
If I knew that I could reach you, I would go...
C#m
It s in my heart and in my head
You can t take back the things you said
So high above, I feel it coming down
        C#m
She said in my heart and in my head
Tell me why this has to end
  G#m F#
Oh no, oh no
                 G#m
                             F#
\mathbf{E}
I can t save us, my Atlantis, we fall
We built this town on shaky ground
                 G#m
I can t save us, my Atlantis, oh no
We built it up to put it down
G#m
And we built it up, and we built it up
And built it up to pull it down
```

And we built it up, and we built it up

And built it up to pull it down
