If you re lonely, and it seems like reaching up  
B F#m A E  
Might break you down, don t go under

D A E  
If I could fly, I d spread my wings

D  
In time to free you from these foolish things

A E  
And we won t be back for sure

D A E  
If it s in my mind, it s on my face

D  
Wish I could take you to a better place

A E  
But we just might miss your call

No one knows your face in the world  
Maybe that s your reason to leave  
I think you might be someone that I came to see  
You re real, if you feel like waking up then come around  
Do you wonder?

And if I could fly, I d spread my wings  
In time to free you from these foolish things  
And we won t be back for sure  
If it s in my mind, it s on my face  
Wish I could take you to another place  
But we just might miss your call

Cause we live in the world  
We live in the world  
We live in the world  
We re free in this world

I have made mistakes I ve wasted life

And I've been down you see  
Why are the friends I have could not make time for me?  
I have lost my face I've broken ground  
I've been around you know  
Far are the loudest voice that waits inside, the time is now  
The time is now, the time is now

If I could fly, I'd spread my wings  
In time to free you from these foolish things  
And we won't be back for sure  
If it's in my mind, it's on my face  
Wish I could take you to a better place  
And we just might miss your call

If you can't find your place in this world  
Your life means something to me  
Feels like every Monday's just a day in the week  
If you're lonely, and it seems like reaching up  
Might break you down, don't go under
