No one knows your face in the world Maybe that s your reason to leave I think you might be someone that I came to see You re real, if you feel like waking up then come around Do you wonder?

And if I could fly, I d spread my wings In time to free you from these foolish things And we won t be back for sure If it s in my mind, it s on my face Wish I could take you to another place But we just might miss your call

Cause we live in the world We live in the world We live in the world We re free in this world

I have made mistakes I ve wasted life

And I ve been down you see Why are the friends I have could not make time for me? I have lost my face I ve broken ground I ve been around you know Far are the loudest voice that waits inside, the time is now The time is now, the time is now

If I could fly, I d spread my wings In time to free you from these foolish things And we won t be back for sure If it s in my mind, it s on my face Wish I could take you to a better place And we just might miss your call

If you can t find your place in this world Your life means something to me Feels like every Monday s just a day in the week If you re lonely, and it seems like reaching up Might break you down, don t go under
