Sean Kingston

Hey this is my first tab. It s a beautiful song and like all Sean Kingston songs

(and most hip-hop/r&b songs in general) it only needs 4 chords to play on guitar,  
just repeat them throughout the song.

The chords are:

F# (bar it or just play it on the first 3 strings)

D

A

E

CHORUS:

F#                      D                      A  
Shawty s like a melody in my head  
                                 E

That I can t keep out  
Got me singin like

F#                      D  
Na na na na everyday

                                 A                      E  
It s like my iPod stuck on replay

F#                      D  
Remember the first time we met

                                 A                      E  
You was at the mall wit yo friend  
I was scared to approach ya  
But then you came closer  
Hopin you would give me a chance

Who would have ever knew  
That we would ever be more than friends  
We re real worldwide, breakin all the rules  
She like a song played again and again

That girl, like somethin off a poster  
That girl, is a dime they say  
That girl, is a gun to my holster  
She s runnin through my mind all day, ay

Chorus X2 and the rest of the song  
just keep playing those 4 chords.
