Baby you don t have to keep looking through my phone
If something is going on
Girl you d already know
We can t even say two words without a fight anymore
How did we get here ?
Baby I gotta know

On the other side of love
You tell me you hate me and I hate you more
On the other side of love
How did we get here ?
Baby I gotta know

Hey baby girl, longevity
Is a thing what u you get with love
trust and good livity
So listen me
And just believe
And let us stop going on
Like we are enemy
Cause most definite
Without you in my life My girl it would be desperate
How could i forget
All the times when you had my back
Gal you give me many strenght
Hundred per cent
So I represent and you represent
I am the president
You re my first lady
Girl you heaven sent
Have my first baby

I told you girl
When you first met me
It s a crazy world
Nuttin comes free

Baby you don t have to keep looking through my phone
If something is going on

Girl you d already know
We can t even say two words without a fight anymore
How did we get here ?
Baby I gotta know (See dey!)

On the other side of love
You tell me you hate me and I hate you more
On the other side of love
How did we get here ?
Baby I gotta know (Ring clock!)

Girl I rember when you first gave it up
And we began to first live it up
I ll steer it up, I ll gear it up
We came to love we no fear is us
But now you ain t seein it clear enough
Yeah you re lookin at me phone and tearing up
And tell me you want to share it up
Me ah tell you what we share is us

I told you girl
When you first met me
It s a crazy world
Nuttin comes free

Baby you don t have to keep looking through my phone
If something is going on
Girl you d already know
We can t even say two words without a fight anymore
How did we get here ?
Baby I gotta know
(sing that)

On the other side of love
You tell me you hate me and I hate you more
On the other side of love
How did we get here ? (Ring clock!)
Baby I gotta know

Oh-oh Ooooh-oh-oh (x4)

Baby you don t have to keep looking through my phone
If something is going on
