

Nightmares And Flare Guns
Seb Adams

Letra y acordes [Intro]

My head is full of nightmares and flare guns
I try to wake myself but I can't run

[Verse 1]

I'm wide awake
The fear is overwhelming
I can't take it
I will have to find a way to keep pretending this ain't real
And make my mind believe that I can be in my fantasy
I shut my eyes and see I should be living in my dreams

[Chorus 1]

My head is full of nightmares and flare guns
I try to wake myself but I can't run
Away from what's been hunting me in my dreams
For so long and now I hold my breath
And count to ten

[Interlude]

My thoughts are closing in
And I have to pick my fights
I don't think that I can win
If I could only get through the night
It may seem hard at first

And it may seem impossible
