

Blister
Seether

Artist: Seether

Song: Blister

Album: B-Side from Karma & Effect

The basic structure to the song Blister.
It is a good song to play chords and sing along with.
My goal is to provide the chords/lyrics and display it.

Verse 1

Em
You re a blister

G
On a finger

C/G
And I ll keep you around,
Just to keep them around

Em
So unexpected

G
You re sequestered

C/G
But you keep it alive,

Yea just keep it inside again

Chorus:

Am Em

And than we ll follow you home again

Am Em

And give the sickness we give to friends

Am Em

And than we swallow you whole again

C/G

In my wide mouth

To praise...

Verse 2

Em

Just let it fester

G

Let it rest here

C/G

Just pretend we re contrived

Just pretend we re in bind

Em

If we re rejected

G

We re expected,

C/G

Just to cling to the lie

And to keep it inside, yea

Chorus

Am Em

And than we ll follow you home again

Am Em

And give the sickness we give to friends

Am Em

And than we swallow you whole again

C/B

In my wide mouth

To please...

Verse 3

Em

If we find her

G

Can we keep her

C/G

Just as cold as we found her

As old as a memory

Em

If she flinches

G

Seven menches

C/G

We ll just keep it alive

And just keep it inside, yea

Chorus

Am Em

And than we ll follow you home again

Am Em

And give the sickness we give to friends

Am Em

And than we swallow you whole again

C/G

In my wide mouth

To pray
