

**Love Her
Seether**

[Intro]

D F C D

(with the beginning **D** chord, stretch your pinky to the 5th fret of the e string to get the right note)

[Chorus]

**G F G Bb
G F Bb G**

[Verse]

**D F C D D
F C D**

I met a girl who hated the world - she used her body to sell her soul

**D F C D D
F C**

Everytime they'd break her and pay - tear out her heart, and leave her in
D
pain

**D F C D D
F C D**

I never found out how she survived all of the sadness and pain kept inside

**D F C D
D F**

I never found out how she could lie with a smile on her face,
C D
and the scratches she'd hide

[Chorus]

**G F G Bm G
F Bm G**

You could love her if you paid, you could have her everyday

**G F G Bm G
F Bm G**

You could love her if you prayed, you could have her every way

[Verse]

(The chords are the same for the next verse and chorus)

Down on her knees, she wept on the floor - this hopeless life she wanted no more
Dead in her mind and cold to the bone - she opened her eyes and saw she was
alone

She never found out how much I tried - all of the sadness she kept made me blind
She never found out how much I cried - the rope so tight on the night that she
died...

[Chorus]

G F G Bm G

F **Bm** **G**

You could love her if you paid, you could have her everyday

G **F** **G** **Bm** **G**

F **Bm** **G**

You could love her if you prayed, you could have her every way

[Outro]

I never found out how she survived - a life lived in lies is a life of denial

I never found out how she could lie - with a smile on her face and the darkness
inside
