F#5 **A5** **F#5** **A5**
As beautiful as fire against the evening sky
F#5 **A5** **G5**
You feel the lost desire, I no longer want to die.
F#5 **A5** **F#5** **A5**
Take me by the hand, and see beyond the lights.
F#5 **A5** **G5**
Strip away the fences, leave me needing, leave me high.

F#5 **A5** **F#5** **A5** **F#5** **A5** **G5**
I know you're so, so low but I can't.

C#5 **E5**
Take me away,
take me away,
take me away,
A
I don't wanna lose control.

C#5 **E5**
Take me away,
take me away,
take me away,
A
I don't wanna lose it all.

Relieved of all the pain,
You let me see again,
Delivered from my shame,
Now I am lost for what to say.
Cleanse and pure the weak,
I suffer when I dream,
I need to find a purpose,
I need to feel you needing me.

I know you're so, so low
that I can't.

Cleansed of me, I suffer when I dream.

Cause I want you to stay,
You take the pain away.
I want you to stay,
I need you here to keep me sane.
Want you to stay,
You take the pain away,
I want you to stay.
I need you here to keep me sane.
