Walk Away From The Sun Seether

Song: Walk Away From The Sun

Tabbed by: Cifra Club _____ F C Walk away from the sun, come slowly undone F C I can see in your eyes I ve already won F I could bleed for a smile, I could cry for some fun C F Walk away from the sun, and tell everyone {riff} **F5 G5 F5 D5** There s so much left in the air {riff} **F5 G5 F5 D5** So much to tell from a stare {riff} **F5 G5 F5 D5** There s so much left to defend {riff} **F5 G5 F5 D5** But I m no fun F C So turn away from the ones who hurt everyone F C I can tell by your smile you re coming undone F C I could bleed for a smile; could die for a gun F Walk away from the sun and kill everyone {riff} **F5 G5 F5 D5** So tiny dancer beware {riff} **F5 G5 F5 D5** We re medicated and scared {riff} **F5 G5 F5 D5** This smile is so hard to wear {riff} F5 G5 F5 D5 But I ve no gun F So turn away from the ones who hurt everyone F C I can tell by your smile you re coming undone C

I could bleed for a smile; could die for a gun F D9 C Walk away from the sun and kill everyone Α4 C And you re fading with every day (you could ve been the next one, should ve been enough for me) Α4 G F You re fading with every day (you could ve been the next one, should ve been enough for me) C G F You re fading with every day (you could ve been the next one, should ve been enough for me) Α4 C G F And you re fading with every day... whoa Solo A4 C G F {riff} F5 G5 F5 D5 There s so much left in the air {riff} **F5 G5** F5 D5 So much to tell from your stare {riff} **F5 G5** F5 D5 There s so much left to defend {riff} **F5 G5 F5 D5** But I m no fun Α4 C G F And you re fading with every day (you could ve been the next one, should ve been enough for me) G F Α4 C You re fading with every day (you could ve been the next one, should ve been enough for me) C G F Α4 You re fading with every day (you could ve been the next one, should ve been enough for me) Α4 C G F And you re fading with every day... whoa D9 F C G Walk away from the sun (fading with every day) (you could ve been the next one, should ve been enough for me) $\{x4\}$
