C Dm
                               Вb
  There s a reason you re everywhere
                      C
  Breathe you in like you re in the air
 Maybe you should call off the day
 Give your girl some time to play
  In my room, from the ceiling to the floor
                                 С
 My body knows that you ve been here before
[Refrão]
                                                C
Every second here without you, I pretend we re skin to skin
Every single breath reminds me that you never, ever left
Every time I think about you, I can feel my hand give in
                         C
Cause you re keeping me safe and warm
              C
                    Вb
Even when I m home alone
Wearing nothing but your cologne
[Verso 2]
C Dm
                        C

  Only one thing that can give me that multiple
