

## Rise

Selena Gómez

**G** **Bm**  
You can stand beside the madness like a falling piece  
**C** **G**  
You can hold onto the sadness like a souvenir  
**F** **C**  
or you can close your eyes and see your life  
**G**  
Like the air  
**G** **Bm**  
You can tap into the strength you never knew you had  
**C** **G**  
You can breathe into your faith no matter where you re at  
**F** **C**  
Just close your eyes and change your life  
**G**  
Like the air  
  
Like the air you can  
**G**  
Rise from the rubble with your mind, you can hover  
**G**  
You can rise like the tide, like the heat it in the summer  
**G**  
Yes, I know there are those who will wanna bring you down  
**G**  
But you can rise with your mind and make your higher power proud  
**G**  
you can rise!  
**G**  
Like the air you can rise!  
  
**G** **Bm**  
The earth can pull you down with all its gravity  
**C** **G**  
And the measure of your worth is sometimes hard to see  
**F** **C**  
So just hold on, when the night is done  
**G**  
Like the sun  
  
Like the air you can  
**G**  
Rise from the rubble with your mind, you can hover  
**G**  
You can rise like the tide, like the heat it in the summer  
**G**  
Yes, I know there are those who will wanna bring you down

**G**

But you can rise with your mind and make your higher power proud

**G**

you can rise!

**G**

Like the air you can rise!

**F**

**C**

**G**

So even when your bones feel like weights

And it s hard to lift the smile on your perfect face

**F**

**C**

You can still find a peaceful place

**G**

**D**

Close your eyes until you re floating up in outer space

**F**

It ll be alright, they re just jealous of your highs

**C**

So they can knock you down, but

Like the air you can

**G**

Rise from the rubble with your mind, you can hover

**G**

You can rise like the tide, like the heat it in the summer

**G**

Yes, I know there are those who will wanna bring you down

**G**

But you can rise with your mind and make your higher power proud

**G**

you can rise!

**G**

Like the air you can rise!
