[Selena Gomez - Verse 1]

C#m
Oh baby, moonlights

Hits the spotlight
F#m
Iâ€™m on my flight
                C#m
To take you away

Iâ€™m feeling so free

Youâ€™re makin me crazy
F#m
Thatâ€™s what you do
                      C#m
Thatâ€™s what you do

Letâ€™s go now!

Lickety split

A girl and a bear

She crawls in a pit
           F#m
Say hello darling

Twisted insanity

Fallen humanity
                     C#m
All I want is some tranquility

Do you hear me?

Do you hear me?
F#m
Well come on, boy

[Chorus]
C#m
come on
                                        Ab
And take me to the other side

Iâ€™m gonâ€™ away
                                Bb
When I look into your eyes

Iâ€™m so in love

I think Iâ€™m gonna crash
          F#m
And get whiplash whiplash whiplash
C#m
Itâ€™s up to you
                                    Ab
And I donâ€™t wanna give you clues

Weâ€™re movin fast
                            Bb
I think we got enough to lose

So donâ€™t look back or else weâ€™re gonna crash
          F#m
And get whiplash whiplash whiplash

[Selena Gomez - Verse 2] (same chords)
