Rest of GTR 1 s solo

22222223202-----
22222222---320-----
-----45410-0-----
-----5-532~-----
that sepultura usually tunes their whole guitar down instead of

just the bottom string. in drop D itsjust easier to play the
power chords and it helps you avoid tuning the whole freakin
guitar every song.

in this part of the solo the guitars are doubled. I thought id

never figure this out until I got winamp.

ITs done. I feel like a genius. I m 13 and I figured out a
solo with a broken string.

Here Ive put both GTR s into one. If you (like me) have a hard
time playing this way, than just play guitar ones part and it
sounds fine.
