i just tabbed the break part, i mean the acoustic part.
it s a really cool riff, and you can figure the bass out easily...

i will work on the whole song later

time : 3.11

```
-----  
-----  
-----  
-----  
-/9-8-6-/9-8--6---6-4----4-2-----  
-----7-----7---7-----6-----
```

that s all, i play this with a classical guitar, normal tuning.
play this near the strings are tied, not from the machine heads
side the other side, you will have the same sound.
