

**Maybe Im In  
Sequoyah Prep School**

I m pretty sure these are the chords

**F, C, G, Am**

I dont wanna say goodnight  
I dont wanna lay me down to sleep  
Cause everything will be alright, I promise  
And if you wanna be with me  
I ll take the train from Tennessee back home tonight  
So be honest

Cause it s been way way way too long  
And I spend everyday holding on

So maybe I m in over my head  
Holding on to you and every word that you said  
about what I m going through  
when I m screaming your name  
Cause I ve got nothing left to say  
You keep saying you re leaving, so walk away

And I can see it in your eyes  
I know it make you want to cry  
And I m not surprised, after trying  
Cause when I m doing all that I can  
It s not enough and it will never be again, but that s alright

Cause it s been way way way too long  
And I spend everyday holding on

So maybe I m in over my head  
Holding on to you and every word that you said  
about what I m going through  
when I m screaming your name  
Cause I ve got nothing left to say  
You keep saying you re leaving, so walk away

Gotta pick myself up of the ground  
And I thought that I had found myself in you  
When I come back up, look around  
I m holding on to nothing, nothing

So maybe I m in over my head  
Holding on to you and every word that you said

So maybe I m in over my head  
Holding on to you and every word that you said  
about what I m going through  
when I m screaming your name  
Cause I ve got nothing left to say  
You keep saying you re leaving, so walk away

Maybe I m in...
