Note also: The first verse is in 3/4 time. The other verses are in 4/4 time.

**E5**                    **E7**                    **G6**        **Asus2**  
Staring at the dark with hungry eyes

**E5**                    **E7**                    **G6**        **Bm/F#**  
The moonlight flickered and a shadow cried

**E5**                    **E7**                    **G6**        **Asus2**  
A gold ring flashed as the howling stopped

**Cmaj7**                    **Bm/F#**                    **E5**  
I called her name as the West Wind dropped

**Cmaj7**                    **Bm/F#**                    **E5**                    **E7**                    **G6**  
I called her name as the West Wind dropped

**E5**                    **E7**                    **G6**        **Asus2**  
I brushed her on the arm with a silver cane

**E5**                    **E7**                    **G6**        **Bm/F#**  
took her by the hand and saw her pain

**E5**                    **E7**                    **G6**        **Asus2**        **Cmaj7**                    **Bm/F#**                    **E5**  
My breath smelt like a burning house with bitter cold words upon my mouth

**Cmaj7**                    **Bm/F#**                    **E5**  
With bitter cold words upon my mouth

**Cmaj7**                    **D6sus2**                    **E5**  
A cold dark figure is on the loose

**Cmaj7**                    **Dsus2**                    **E5**  
With bright sharp teeth to fight the truth

**Cmaj7**                    **D6sus2**                    **E5**

I ll steal your honour and tell you lies

**Cmaj7**            **D6sus2**                            **E5**  
Leave you alone in the blood red skies

**Cmaj7**                            **D6sus2**                            **E5**  
Leave you all alone in a blood red sky (repeat)

**E5**            **E7**            **G6**            **Asus2**  
I wake up late in the midday sun

**E5**                            **E7**                            **G6**            **Bm/F#**  
Reach for a shadow and I ll be gone

**E5**            **E7**                            **G6**                            **Asus2**  
Through empty trees and storm-blown trees

**Cmaj7**                            **Bm/F#**                            **E5**  
Praying to the night to set you free

**Cmaj7**                            **Bm/F#**    **E5**            **E7**                            **G6**  
You ll be praying to the night to set you free.

(chorus)

**E5**            **E7**                            **G7**                            **Asus2**  
Falling shadow and a cold embrace

**Cmaj7**                            **Bm/F#**                            **E5**  
Cross your heart and you ll see my face (repeat once)

(repeat chorus ad lib)
