

**City In A Bottle**  
**Shakey Graves**

Hey, love this song, thought I d tab it out since Shakey doesn t have enough tabs around. Enjoy.

The song is played with a capo on the second fret, but you can also play without a capo or with barre chords if you want.

(The Am-C progression in the verses is played with Am for three bars and C for one)

Verse 1:

Well the cold has a hard time finding me **E B7 Am C**  
Unlike some folks I know **E B7 Am C**  
Yeah all the men down in union square **E B7 Am C**  
Are worried about the snow

**Am**  
When your pockets fill  
**C**  
With dollar bills  
**Am C**  
Your heart forgets to eat  
**E B7**  
Its a wicked thing  
**E**  
It owns this street

Chorus:

**Am C E Am C**  
Yeah fix your boots or take me home says quick monique the freak **Am C Am**  
**C**  
I need an easy dollar are you trick or are you treat  
**E**  
Well if she was six teeth younger and if i had half a mind  
**B7 E**  
I'd carry her away from that wicked thing outside

Verse 2:

Well i saw a carried bundle  
that has fingers eyes and toes  
As a father of deception  
i have never raised a soul

Itâ€™s a purchase captured second hand and cherished more than gold  
Itâ€™s a shelter from that wicked thing that wanders in the night

Chorus:

Yeah fix your boots or take me home says quick monique the freak  
I need an easy dollar are you trick or are you treat  
Well if she was six teeth younger and if i had half a mind  
Iâ€™d carry her away from that wicked thing outside  
The water on the dirty streets has all but turned to ice  
To pave the road for wicked things that wander in the night
