Gonna tell you what went wrong
Em7                 C
Why I had to run away
            G
 Cuz you re in my face
       C
Always on my case
         Em7
I just need some space

Away from you
          G                    C
I need a Vacation cation cation!
               Em7               C
Yeah, I need a Vacation cation cation!
                       G    C
There s nothing you can do
        Em7
Doesn t matter where I go
        C                    G
Just as long as it s away from you
G                    C
No more stupid fights
Em7                          C
No more searching through my phone
G                    C
Feels like paradise
        Em7               C
When I think about bein  alone
            G
 Cuz you re in my face
       C
```

```
Always on my case

Just as long as it s away from you
          G                   C
I need a Vacation cation cation!
