

Everything To Me
Shane Filan

INTRO: **C**

C
If life is like a jigsaw
F
Where would you start

You think you got the picture
C
Like it s written on your heart

You lay out all the pieces
F
One by one

But if you stare at it too closely
Am
The answer never comes

So I take a breath
F
Cos I need time to figure this all out
Am
I got lost inside

What I thought I need
F
But I understand now

[CHORUS]

C
Cause I don t need the sunlight shining on my face
F
C
And I don t need perfection to have the perfect day
F
I just want to see you happy a smile on your face
Am **G**
Nothing else matters cos you re everything to me, to me, to me
F
You re everything to me

C
Can you tell me where I m going
F
Tell me what comes next

Cause I know that it s not over

C

Haven t even started yet

I just wanna get there

F

But I hope it s not too late

Cause the closer that I m getting

Am

The more I feel the weight

Let s take a break take our time

F

To figure this all out

Am

I got lost inside

F

What I thought I need but I understand now

[CHORUS]

C

F

Cause I don t need the sunlight shining on my face

C

And I don t need perfection to have the perfect day

F

I just want to see you happy a smile on your face

Am

G

Nothing else matters cos you re everything to me,

F

All that I thought I want

Am

G

Is not what I really need

F

You re right here in front of me

[CHORUS x2]

C

F

No, I don t need the sunlight shining on my face

C

And I don t need perfection to have the perfect day

F

I just want to see you happy a smile on your face

C

Nothing else matters, Oh No nothing else matters
