C#m A E B

Calls me home

Back in the day

When I was younger

I was so lost and proud

Ive gained the world
But it will never
Compare to what i ve earned

In the quiet moment
When the earth holds still

Im coming home
To breathe again
To start again

Im coming home
From all the places
I have been

With nothing
But a voice within
That calls meâ€|
Calls me home
Calls me home

Im coming home
To breathe again
To start again

Im coming home
To breathe again
To start again

Im coming home
From all the places
I have been

With nothing
But a voice within
That calls meâ€|
