

**All The Times I Cried**  
**Sharleen Spiteri**

Nice easy song, the chords for the first verse are just repeated for the rest.

VERSE 1

**A** **D**  
You don t come around no more like you used to do

Oh god I miss your company

**A**  
Your innocence you know just like  
**D**  
Yeah like it used to be

And how I need you here with me

BRIDGE

**A** **D**  
You just kept on asking why  
**A** **D**  
Never wanting to really try

Chorus

**A**  
Cause all the times I ve cried  
**C#**  
All this pain I ve tried to hide  
**Bm**  
What am I supposed to dream  
**F#m**  
When nothings ever what it seems

VERSE 2

The pain it drifts from day to day  
And it makes think  
That how I wish it would subside  
To smile again all the fears be gone  
Find my self respect  
There s nothing done with that effect

BRIDGE

You just kept on asking why  
Never wanting to really try

Chorus

Cause all the times I ve cried  
All this pain I ve tried to hide  
What am I supposed to dream

When nothings ever what it seems

MIDDLE

Oh...

You never were the one

Oh...

You never were the one

Chorus

Cause all the times I ve cried

All this pain I ve tried to hide

What am I supposed to dream

When nothings ever what it seems

Cause all the times I ve cried

All this pain I ve tried to hide

What am I supposed to dream

When nothings ever what it seems
