

**I Wish I Knew**  
**Sharon Van Etten**

Sharon Van Etten - I Wish I Knew

**E**                    **A**  
I wish I knew what to do with you,  
**E**                    **A**                    **F#m**  
But the truth is I ain't got a clue,  
**A**                    **E**  
Do you? Do You?

**E**                    **A**                    **F#m**  
I wish I had an idea of what I need,  
**A**                    **F#m**                    **B**                    **A**(barre chord)                    **G#m**  
But we, oh we, can't know and that's okay,  
**A**  
That's okay.

**A**                    **E**  
I wish you'd understand,  
**E**                    **A**  
I wish that I could know,  
**F#m**                    **B**                    **F#m**                    **A**  
The truth is I have no idea.

**E**                    **A**  
I wish we could just run around  
**E**                    **A**                    **F#m**  
And only worry about right now,  
**A**                    **F#m**                    **B**                    **E**                    **F#m**  
I hate to admit it but I don't know shit  
**A**                    **B**                    **E**  
And neither do you, do you, do you,

**A**                    **F#m**  
And that is good enough  
**G#m**  
For me, for you, for now,  
**A**(barre chord)  
As long as we can talk about it.
