Round of Blues (Shawn Colvin - Larry Klein)

I was watching Shawn Colvin on Austin City Limits and was able to figure out Round of Blues, which, granted, wasn't all that hard. She plays it capoed at the 6th fret. At that key, the chords for the verses and bridge are just C, D, and G and for the chorus are F, G, and C. (I didn't notice if the other players were capoed; I was too busy paying attention to what she was doing.)

capo 6th fret

**D**            **E**   **A**  
Here we go again  
**D**            **E**            **A**  
Another round of blues  
**D**            **E**            **A**  
Several miles ago  
**D**            **E**            **A**  
I set down my angel shoes  
On a lost highway  
For a better view  
Now in my mind's eye  
All roads lead to you

Chorus:

**G**  
So wherever you go  
                         **A**            **D**  
You better take care of me  
**G**  
This time  
         **A**            **D**  
If you're gonna go  
**G**            **A**            **D**  
Remember me and all  
**G**  
This time

We had our bitter cheer  
And sweet sorrow

We lost a lot today  
We get it back tomorrow  
I hear the sound of wheels  
I know the rainbow s end  
I see lights in a fat city  
I feel love again

Chorus

Bridge:

**D**

All this time

**A**

I been makin deals

**E**

Shades of black and white

**A**

On a Hollywood reel

**D**

All this time

**A**

I been missing

**E**

Something so real, so real

**D**

All this time

**A**

I been a face in a crowd

**E**

Now I m living in color

**A**

And laughing out loud

**D**

All these names

**A**

For just foolin around

**E**

It s a new breakthrough

It s an old breakdown

We smoked a lot of hope  
We did our cryin , too  
We re finally waking up  
To what a real love can do  
Down a lost highway  
Under the twilight moon  
A chorus in your eyes  
Another round of blues

Chorus

**D**

We had all

**G**

This time

**D**

We had all

**G**

This time

(Lyrics from cd-sleeve)

Personally, I like the sound when I capo on the 1st fret and transpose it down, which makes the chords F, G, and C (verses and bridge) and **C**, **D**, and **G** (chorus), i.**F#**.,

capo 1st fret

**G**            **A**    **D**

Here we go again

**G**            **A**            **D**

Another round of blues

...

Chorus:

**C**

So wherever you go

**D**            **G**

You better take care of me

**C**

This time

**D**            **G**

If you re gonna go

...

Bridge:

**G**

All this time

**D**

I been makin deals

**A**

Shades of black and white

**D**

On a Hollywood reel

**G**

All this time

**D**

I been missing

**A**

Something so real, so real

...

|>
|> capo 6th fret

```

Here's the intro: there's a synth chord that sustains for a while, and then you play (remembering the capo) the following twice, with some syncopation on the last part the second time

```

-----9-9--|
-----6h7-----6-6--|
-----8--8-6-----7-7--|
--8-8--8--8-8-9-9-9-9--|
--6-6--6--6-6-----|
-----|

```

The last chord is (I think) Fdim(9), which is the root, minor third, diminished 5th, and major 9th

This chord is used in other places throughout the rest of the song.

```

|>
|> D      E  A
|> Here we go again
|> D      E      A
|> Another round of blues
|> D      E      A
|> Several miles ago
|> D      E      A
|> I set down my angel shoes

```

The following section uses the **D-E-F#m** chord progression, not **D-E-A**!!!!

```
|> On a lost highway
|> For a better view
|> Now in my mind s eye
```

This last line sits on one chord, which is a form of C(9)/G, played as

```
--6--
--7--
--6--
--6--
--9--
--9--
```

```
|> All roads lead to you
|>
|> Chorus:
|> G
|> So wherever you go
|>           A           D
|> You better take care of me
|> G
|> This time
|>   A       D
|> If you re gonna go
|> G         A       D
|> Remember me and all
|> G
|> This time
|>
```

Try this for the chorus instead:

```
D/G           Gdim(9)
So wherever you go
           A       Bm
You d better take care of me
      Gdim(9)
This time
      Gdim(9)/F#   Em
If you re gonna go
           A       Bm
Remember me and all
      Gdim(9)
This time
```

Play the **Gdim(9)/F#** as

```
--9--
--6--
--7--
--8--
-----
```

-----

-----big cut right here - play verse and chorus as above-----

|> Bridge:  
|> **D**  
|> All this time  
|>           **A**  
|> I been makin deals  
|>           **E**  
|> Shades of black and white  
|>           **A**  
|> On a Hollywood reel  
|> **D**  
|> All this time  
|>           **A**  
|> I been missing  
|>           **E**  
|> Something so real, so real  
|> **D**  
|> All this time  
|>           **A**  
|> I been a face in a crowd  
|>           **E**  
|> Now I m living in color  
|>           **A**  
|> And laughing out loud

Play Em instead of G on the above line

|> **D**  
|> All these names  
|>           **A**  
|> For just foolin around  
|>           **E**  
|> It s a new breakthrough  
|> It s an old breakdown

The rest of the song is repeats of the above verses and chorus, so play them accordingly.

Let me know if you have any questions, or if you take issue with anything I ve written here.

Dave
