Talk Around Town
Shawn Colvin

Shawn Colvin   Talk Around Town written by Roy Forbes

```
C#                F#                    C#
Special everybody wants to be special
F#                    Ebm                G#
Everybody wants to be great at what they do
Ebm               G#   C#  F#
Great at what they do
C#      F#                     C#
Honor everybody wants a bit of honor
F#                        Ebm            G#
Everybody wants to put   in time on the pedistal
Ebm          G#          C#
Time on the pedistal
                    G#                          C#
I m gonna go out and stir up a little  bit of talk around town
G#                    C#
Burn  bright while the sun goes down
G#                     C#
Stir  up a little bit of talk  about town
G#                      C#    F#    C#     F#
Burn   while the sun goes down
C#        F#                      C#
Revrence everybody want a bit of revrence
F#                        Ebm              G#
Everybody wants the chance to move a another mind
Ebm               G#  C#  F#
Leave a bit of truth behind
C#       F#                    C#
Glory  desperation cries for glory
F#
Some people want to go and out   try  to stop
Ebm         G#
Time with a gun
Ebm
Freeze the frame
G#           C#
```

Draw the wild
```
                    G#                                        C#
I m gonna go out and stir up a little  bit of talk around town
G#                        C#
Burn  bright while the sun goes down
G#                         C#
Stir  up a little bit of talk  about town
G#                           A
Burn    while the sun goes down
          E
You can feel the heat
A                     E                      A
Out from the victory tumbling thru the streets
            E         A
Out in the alley way that s where  you know
E                       F#       C#       F#
The snakes are gonna wait for another day
                             C#
Meanwhile everybody cries for money
F#                                 C#
People will do a lot of things for money
F#                             Ebm                    G#
People want to believe there s a freedom they can  buy
Ebm                    G#        C#
Place where they don t have to try
                      G#                           C#
I m gonna go out and stir up a little  bit of talk around town
G#                        C#
Burn  bright while the sun goes down
G#                            C#
Stir  up a little bit of talk  around town
G#                         C#     F#     C#       F#
Burn    while the sun goes down
```
