Something Stupid
Shawn Desman

Hi Everyone! I m not an expert guitarist, but this is what I could do.
It s my first tab, so hope you like it!
Fercho

Intro: **A#m C# G#**

A#m   C#   G#
Never once have you made me feel what we had was something real
A#m   C#   G#
I just came to realize ohh
A#m   C#   G#
Never once have you said goodbye with a heart that starts to cry
A#m   C#   G#
That s not how it s suppose to be

                          F#
So where do we go from here
                        A#m
Where do we go from here
                            G#
 Cause all that you said was enough to hold on and believe it forever

F#
              A#m   **G#**
So why do I feel like I m livin a lie
C#   F#
Something in your eyes
                  A#m   **G#**
Is tellin me to stop and think twice
    C#   F#
And I just can t decide
                    A#m   **G#**
So don t say you love me unless you mean it
        C#   F#
 Cause I might do something stupid
      A#m   **G#**
Like believe it, like believe it
                        F#
I might do something stupid
      A#m   **G#**
Like believe it, like believe it
                        A#m
I might do something stupid

A#m   C#   G#

Never once have you said hello without saying you ve got to go
A#m   **C#**   **G#**
And I can t help but wonder why
A#m   **C#**   **G#**
Never once have you picked up the phone just to call and let me know
A#m   **C#**   **G#**
How much you re thinkin of me

                        F#
So where do we go from here
                      A#m
Where do we go from here
                              G#
 Cause all that you said was enough to hold on and believe it forever

F#
          A#m   **G#**
So why do I feel like I m livin a lie
C#   **F#**
Something in your eyes
              A#m   **G#**
Is tellin me to stop and think twice
    C#   **F#**
And I just can t decide
              A#m   **G#**
So don t say you love me unless you mean it
       C#   **F#**
 Cause I might do something stupid
      A#m   **G#**
Like believe it, like believe it
                      F#
I might do something stupid
       A#m   **G#**
Like believe it, like believe it
                      F#
I might do something stupid

                    A#m
Are we gonna get it right
                      C#
Were you ever really mine
                    G#
Even after all this time, no

F#
          A#m   **G#**
So why do I feel like I m livin a lie
C#   **F#**
Something in your eyes

```
              A#m                 G#
Is tellin  me to stop and think twice
    C#              F#
And I just can t decide
                 A#m                 G#
So don t say you love me unless you mean it
        C#                    F#
 Cause I might do something stupid
      A#m               G#
Like believe it, like believe it
                      F#
I might do something stupid

             A#m                     G#
So why do I feel like I m livin  a lie
C#                 F#
Something in your eyes
                 A#m                 G#
Is tellin  me to stop and think twice
     C#              F#
And I just can t decide
                 A#m                 G#
So don t say you love me unless you mean it
          C#                     F#
 Cause I might do something stupid
      A#m               G#
Like believe it, like believe it
                      F#
I might do something stupid
      A#m               G#
Like believe it, like believe it
                      F#    A#m   G#
I might do something stupid

F#    A#m   G#
```
