The Ghost Of Johnny Cash Shawn Mullins

The Ghost of Johnny Cash by Shawn Mullins

Acoustic version from KINK.FM video

Key: A

Standard Tuning (I think the studio version is in **F#** and uses an alternate tuning. I liked this version since Shawn transposed it into standard tuning, which makes it easier to play live and it loses none of the character of the studio version)

Am G

I woke up in a cold sweat, from a dream at 3am,

D/F#

I saw a man dressed all in black, reach out and take the helm,

F E Am

And he charted us a course, out into the spirit realm.

Am G

I can taste the salt; feel the blisters on my hand

D/F# F

As I m pulling at the ores, rowing on to glory land,

Am C G D/F#

And sitting in the stern, singin hymns and talkin trash

Am G D/F# F E Am

Is my broken guardian angel, the ghost of Johnny Cash.

Am G

Well, Johnny s quoting from the bible, while I m trying to steer this leaky craft,

D/F# F

And his familiar voice reminds me that I m man who s cut in half,

Am C G D/F#

His tarnished halo slips and shines, as the raging billows crash,

Am G D/F# F E Am

And I m riding out the deluge with the ghost of Johnny Cash

Chorus:

G

Some sinners need their saints to be survivors of the fall,

Am G D/F# E

Cuz when you re down here on your knees, most angels look to tall,

Am G D/F# F

So I ll just live this life out dust to dust and ash to ash,

Am G D/F# F E Am

With my guide from the other side the ghost of Johnny Cash,
