

What Can I Say  
Shealeigh

What Can I Say?  
Shealeigh

Chords: **C G Am F**

**C** **G** **Am**  
You treat this like a game but it s my heart, and it s breaking  
**F G**

all because of you

**C** **G**  
The hourglass is running out and you re still trying to fill it up but  
**Am F G**

I ve lost hope...you should too.

This situation we re repeating,

over-rated is what you ve made it,

I m all done and now I m all out of time.

(Chorus)

**C** **G**  
What can I say, what can I say  
**Am F G**  
when all you do is push me away  
**C** **G**  
what will I say to you when it all comes down to it  
**Am F G C**  
seems like with every word we say we re slowly fading away

**C** **G**  
You acted like you cared but you don t  
**Am F G**

stop pretending cause you re hurting me

**C**  
My first impressions disappear

**G**  
Your tongue-tied words so insincere

**Am F G**  
You always do as you please.

This situation we re repeating,

over-rated is what you ve made it,

I m all done and now I m all out of time.

(Chorus)

What can I say, what can I say  
when all you do is push me away  
what will I say to you when it all comes down to it  
seems like with every word we say we re slowly fading away

(Bridge)

I can t talk to you  
You never see my point of view, no  
Like I want you to (like I want you to)  
Seems like I always go unheard because  
Your actions speak louder than my words  
That s why I always come back to...

(Chorus)

What can I say, what can I say  
when all you do is push me away  
what will I say to you when it all comes down to it  
seems like with every word we say we re slowly fading away

(What can I say)

I m fading away.

(What I can say)

I m fading away, away,

oh, cause it s my heart and it s breaking

all because of you

What can I say?
