

**On Standby
Shed Seven**

On Standby Shed Seven

Would you stay on standby, because I need another alibi.
In the wrong place at the wrong time.
Could you talk a fine thyme, I need to know that I'll be fine. Bullet proof.

It's like I've never been born . We conceive in the alleyways
It's like I've never been born . We believe in the other ways
That you do , and you did.
And there's proof that we did it wrong tonight.

Could you sense a tragedy, because I saw it on the BBC.
There's a panel on the channel. Could you walk a narrow line.
I need to know I'll serve my time. With some use.

It's like I've never been born . We conceive in the alleyways
It's like I've never been born . We believe in the other ways
That you do , and you did.
And there 's proof that we did it wrong tonight.

And tonight, you can cry if you want to.
But it wont help you. You can cry if you want to.
But it wont help, you. To get through this crime.
It will plague you, standby.

break

It's like I've never been born . We conceive in the alleyways
It's like I've never been born . We believe in the other ways
That you do , and you did.
And there's proof that we did it wrong tonight.

We did wrong we did wrong.
