Tuning: Standard

I'm pretty sure this song is entirely played in that G  
shape thingy (apart from some D's)  
you can if you want to, up to you.  
enjoy.

Verse 1:

**G**

I'm on a flight tonight you see me waving at you

**Em**

You're painting flowers on the ceiling

**C**

But you're looking through the leaves

**D**

And the cloudy sky to me

**Em**

I'm carrying our dreams across the sky

**A**

To another city where the future lies

**C**

**D**

For you and I to be, in perfect harmony

**Em**

I can almost hear that song behind your eyes

**A**

**D**

And I'll fall asleep to that distant lullaby

Chorus:

**G**

What a dream we have to offer

**Em**

Wanna try to make this all our own

**C**

**D**

**G**

To take this place and make this home

Verse 2:

**G**

I'm far away tonight you feel it but I'll greet the new moon

**Em**

Tell him our plans and what's before us

**C**

And he'll do the same for me
