Tuning: Standard

I'm pretty sure this song is entirely played in that G shape thingy (apart from some D's) you can if you want to, up to you. enjoy.

Verse 1:

**G**  
I'm on a flight tonight you see me waving at you  
**Em**  
You're painting flowers on the ceiling  
**C**  
But you're looking through the leaves  
**D**  
And the cloudy sky to me  
**Em**  
I'm carrying our dreams across the sky  
**A**  
To another city where the future lies  
**C** **D**  
For you and I to be, in perfect harmony  
**Em**  
I can almost hear that song behind your eyes  
**A** **D**  
And I'll fall asleep to that distant lullaby

Chorus:

**G**  
What a dream we have to offer  
**Em**  
Wanna try to make this all our own  
**C** **D** **G**  
To take this place and make this home

Verse 2:

**G**  
I'm far away tonight you feel it but I'll greet the new moon  
**Em**  
Tell him our plans and what's before us  
**C**  
And he'll do the same for me

**D** **Em**

Recount the history of a million years of love and loss in life

**A**

And giving up his crown, the city lights

**C** **D** **G**

For he's content to shine for us instead
