

Safe and Sound
Sheryl Crow

D **G** **Bm** **A**
Maybe this is forever, never fades away
D **G** **Bm** **G**
maybe this is a rocket into space
A **Am** **A** **Am**
I dont want to be sad, i dont want to break down
Dm **G** **D** **Bb** **C** **G**
after all I wont let go till youre safe and sound x2
D **Dm** **C**
there s beauty in release after all the seas
G **A**
for you and me
I dont mind that you re crying
I know you really try
Maybe if I could hold on through the night
I don t be lonely I don t want to be scared
All our friends are waiting there
Till youre safe and sound x2
Theres beauty in release with no-one left to please
But you and me
D **Bb** **C** **G**
Feel like I could have held on
Feel like I could have let go
Feel like I could have helped you
Feel like I could have changed you
Feel like I could have held on
Feel like I could have let you
Feel like I was a stranger
Feel like I was an angel
Feel like I was a hero
Feel like I was a zero
Feel like I could have touched you
Feel like I could have saved you
Feel like I could have held you
Feel like I could have moved you
Feel like I could have killed you
Feel like I could have told you
Feel like I could have loved you . . .
