

**Driftwood**  
**Sheytoons**

Capo 2

Verse 1

**G** **A**

So here we are

**G** **A**

On the phone

**G** **A**

Silence speaks

**G** **A**

One thousand words

**G** **A**

Where to start

**G** **A**

I don't know

**G** **A**

Where does love

**G** **A**

Conquer all?

Bridge

**C** **G**

It's been a while since I've seen you smile

**C** **G**

Say the word I know the deal

**C** **G**

Say to me that you're okay

**D**

Then I will go

**D7**

And let you sleep

Verse 2: Same chords as 1st verse

They will know I'm always here

Kiss them both and take good care

Half this time we'll find our way

Drift back to me, I'll do the same

Bridge

Chorus

**G** **A** **C**

I won't let us drift apart

**G** **A** **C**

Give her the chance to change the past

**G**                    **A**                    **C**

Tear down the guard around my heart

**G**                    **A**                    **C**

Give her the chance to make it last

Chorus twice more.

End on G.
