

Here I Go
Sheytoons

Here I Go, by Sheytoons.

I am fully open to lyric corrections, especially the tune dee-do bit. Think I've got the chords right, they work for me.

Verse 1

G
The night time sang its lullaby that I gently listened to

C **G**
There were times I found myself humming its tune dee-do
December's winter winds blew through and the coldness stung my heart

C **G**
But when you kissed me in the night the sun shone in my heart
Chorus

C
Here I go, watching you
G D

Walk away
C
Here I go, I don't know
G D G

What to say, no.

Verse 2

Use the same chord pattern as Verse 1

Count the moons that pass between the time it takes to see
The prettiest girl that I adore saving her arms for me
This unredeemed soul of mine is flooded by the light
When you save my gentle soul the floods receive and dry

Chorus

Verse 3

Same chord pattern as verses 1 and 2.

The roads that are still before my time now they don't worry me
Now that you are God enough the roads are clear to see
Now the past can be left behind and ahead we will grow
With no lifetime guarantees apart from love we know

Chorus

Chorus A (different)

C
Here I go, watching you
G D G

Walk away

C

Here I go, I don't know

G D

What to say, yeah

G
