

**Losing
Sheytoons**

www.sheytoons.com

G(x3)C(x1) and so on for all the verses.

There are times when I fall through
I can't feel the love in you
I know that I'm pushing you
Away from the man you knew

It's not always black and white
The grey obscures and blocks the light
So why not paint me red tonight?
But I've got to feel what's right

Chorus

C **D**
And there you are

C
You're losing you in me

C **D**
And there you are

C
I'm losing you from me

C **D**
And there you are

G
We're losing you and me

Back to verse pattern

Call a truce on this silent war
We both lost an empty draw
Words we've used lie on the floor
And broken swords we must ignore

You don't think I fit the bill
Don't know if I ever will
Always further all uphill
But I know I love you still

Chorus

Bridge

C **G**
How can I show that this was not

C **G**
Who I wanted to be

C **G**

Let go of the hurt inside

C **D** **D7** **G**

And figure out why you love me

Back to verse pattern

(alternative lyrics sometimes used)

It s so clear when looking back
Far too young to see the cracks
Keep our box car on its tracks
But please stand by me while I pack

This is not a simple choice
Nothing left now to rejoice
Johnny Cash and Jimmy Joyce
Now speak for me, use my voice

Chorus

End on **G**
