

**Navajo Tears**  
**Shocking Blue**

**Dm**            **G**            **Dm**  
Man came to ruin in the land of the Tomahawk  
**C**                            **G**  
Where wants the Buffalo graze do high way to call this place  
**Dm**            **G**            **Dm**  
Man shot them down to have some more fun  
**C**                            **G**  
And only a few had a chance to run  
**Dm**            **G**            **Dm**  
Navajo tears, navajo tears fell  
**C**                            **G**  
Like the water from the mountains  
**Dm**            **G**            **Dm**  
Navajo tears, navajo tears fell  
**C**                            **Dsus2**  
Like the water from the mountains

**Dm**            **G**            **Dm**  
Man came to ruin in the land of the Tomahawk  
**C**                            **G**  
What could a knife do against rifles?  
**Dm**            **G**            **Dm**  
Many stories are written in the sand  
**C**                            **G**  
And I wonder when people go hand in hand

**Dm**            **G**            **Dm**  
Navajo tears, navajo tears fell  
**C**                            **G**  
Like the water from the mountains  
**Dm**            **G**            **Dm**  
Navajo tears, navajo tears fell  
**C**                            **Dsus2**  
Like the water from the mountains
