[Verse 1]

Well, you re the grand one, have you noticed
When you walk in all the fairy boys get very nervous
Well, my starship doesn t want me and neither does his world
I m glad I caught you on my view screen, sailor

[Verse 2]

You re the grand one, come and court me
Cause this wooing is what I m wanting
When my spacesuit comes to warm me and hold me like a God
I am the captain of the gravity, Maxwell, everywhere I see your faces

[Chorus]

Hot One, from a starship over Venus to the Sun
But, it s a crime, you re mistaken, a momentary seizure of love
Oh, love

[Verse 3]

Well, you re the grand one, but darling, I m a mess
I ve got human minds we can form but the boys are not impressed

I ll be the captain of the gravity, Maxwell
I see your faces in the strangest places
