Kill And Run
Sia

[Verse]
```
D                             Gm
Watching the sequence of sounds,
        C             D
Coming out of your mouth,
         Gm           Am
But this noise is too loud.
D                             Gm
Follow the hands as they move,
        C             D
Try to make out your mood,
        Gm           Am
But my brain doesn t want to.
```

[Pre-Chorus]
```

What have I done to you?

D                             Gm
Interpret the eyes as they dart,

Should I cry? Should I laugh?
     Gm           Am
Your poor lashes blow.
D               Gm
Victim of sensory love,
     C          D
You cry, I ll win the war,

An innocent call.
```
