

Hexagons And Other Fun Materials
Sidney Gish

[Verse 1]

C **G**
i want to learn math again
C **G**
just to feel better than
C **G**
my socially adjusted friends
C **G**
and get a 95 percent

C **G**
tiny plastic polygons
C **G**
i m building things that aren t real -
C **G**
endless streams of hexagons
C **G**
and other fun materials

[Chorus]

C **D**
i play jumpstart but math s hard
C
and i can t stand learning anything
G **C**
i like when people think i m smart
Cm **C** **G**
but i m dumb, so i won t add sums up anymore
C **G** **F** **C** **Cm**
and i barely even care that i m forgetting all the common core
D# **C** **D#** **C**
i won t add sums up anymore, i won t add sums up anymore

[Verse 2]

C **G**
turns out i want this class to end
C **G**
i don t need to learn to hate it again
C **G**
i m falling out of my seat
C **G**
and drawing on the worksheets -
C **G**
exactly how i used to be
C **G**
and it s a blast to high-achieve,

C **G**
but only cause approval is the root of what i need,

C **G**
i guess i ll study something else

C **G**
but this time i won t hate myself

[Chorus]

C **D**
i play jumpstart but math s hard

C
and i can t stand learning anything

G **F** **C**
i like when grown-ups call me smart

Cm **C** **G**
but i m dumb, so i won t add sums up anymore

C **G** **F** **C** **Cm**
and i barely even care that i m forgetting all the common core

D# **C** **D#** **C**
i won t add sums up anymore, i won t add sums up anymore

[math interlude]

[Chorus]

C **D**
i play jumpstart but math s hard

C
and i can t stand learning anything

G **F** **C**
i like when people think i m smart

Cm **C** **G**
but i m dumb, so i won t add sums up anymore

C **G** **F** **C** **Cm**
and i barely even care that i m forgetting all the common core

D# **C** **D#** **C**
i won t add sums up anymore, i won t add sums up anymore

D# **C** **D#** **C** **G**
i won t add sums up anymore, i won t add sums up anymore
