[Verse 1]

Bb **Dm**
A ring in a box but not your dream
C **Bb**
It s not a diamond, it s aquamarine
Dm
Your shocking look of self defeat
C **Bb**
So desperate
Dm
I think of the place where you fooled me
C **Bb**
Beside the tarmac you never came clean
Dm
I m driving past the gruesome scene
C **Bb** **Dm** **C** **Bb**
I ll never forget this
Dm **Bb**
I told you I wished that I was dead
F
My eyes wouldn t open up again
Dm **Bb** **C**
I can t believe I wasn t joking
Dm **Bb**
Salt and lime I taste
F **Dm**
The sickest thoughts I can t erase
Bb **C** **Bb**
These images won t stop provoking

[Pre-Chorus]

Bb
You know you could

I wish you would

[Chorus]

Dm **C** **F**
Fall on your knees and remove the sorrow

Return the piece of my heart you borrowed
Bb

Things you used to say

We re forgetting things that we used to master

Games we used to play

Sweat rolls down my face

My bloody knuckles mark the stains

My throat is closing up, I m choking

[Bridge]

Dm

Same bed, we take no precautions

C Bb

Emotions, regrets and revenge

The last step in killing the karma

F

It makes sense from where we've been

Dm

The same car same songs same motions

Bb

We hold hands, relive how we met

Bb

But no talk, no reconciliation

This train's already left

Dm

Did you think next April

You'd be even further away

Bb

Did you keep him faithful

How many nights did you lay awake

Dm

And even six years later

The dialogue, it stays the same

Bb

You're 2000 miles away

Betrayers never change

[Verse 3]

A ring in a box but not from me
