

**Fearful Man**  
**Simon Joyner**

**C**

**C G**  
The magazine needs flippin' through

**F C**  
The calendar needs tearing too

**F G C**  
The dry veins in the brown leaves start to cry

**C G**  
And you've got old man's hands to weigh

**F C**  
Anniversaries to celebrate

**F G C G**  
Purple lips to part in a heart to ransack

**C G**  
Every step you take is writ

**F C**  
Down in a great book you envision

**F G C**  
Somewhere off in the clouds where they know you're pure

**G**

**C G**  
A sick shadow is hanging low

**F C**  
She holds your secret just to let it go

**F G C**  
And you've never stabbed a villain in the back before

**G**

**C**  
You're a fearful man

**G**  
Your hands shake

**F C**  
And your eyes dance along the landscape

**F G C G**  
Looking for the next best place to run

**C G**  
Into a ditch or a dead end

**F C**

Through the alley or out on Main

**F**            **G**            **C**

To the epicenter or to the sun

Enjoy.
