Supertramps & Superstars - Simple Kid

Tabbed by: theaverageman

Tuning: Standard /or with capo 2

This is my first tab so don t be too harsh, but positive criticism is welcome

The chords used without the capo are Bm and G for the verses and progression of F#maj,

D, for the chorus.

It sounds better using barre chords in my opinion but it s your preference.

With Capo 2, the verse is played Am and F, followed by Em, F and Am7 for the chorus

Substitute the chords in for what way you would like to play
