G#m B
Water was running, children were running
E C#
You were running out of time
G#m B
Under the mountain, a golden fountain
E C#
Were you praying at the Lares shrine?
G#m B E C#
But ohh oh your city lies in dust, my friend
G#m B E C#
ohh oh your city lies in dust, my friend

G#m B
We found you hiding, we found you lying
E C#
Choking on the dirt and sand
G#m B
Your former glories and all the stories
E C#
Dragged and washed with eager hands

But ohh oh your city lies in dust, my friend
ohh oh your city lies in dust, my friend
your city lies in dust

Water was running, children were running
We found you hiding, we found you lying
Water was running; children were running
We found you hiding, we found you lying
your city lies in dust
ohh oh your city lies in dust, my friend

Hot and burning in your nostrils
Pouring down your gaping mouth

Your molten bodies blanket of cinders
Caught in the throes

Ohh oh your city lies in dust, my friend
Ohh oh your city lies in dust, my friend
Ohh oh your city lies in dust, my friend
Ohh oh your city lies in dust, my friend

Your city lies in dust
