

Hold On
Sister Hazel

Hold On " Sister Hazel

tab by Is Smith momentous@gmail.com

This is a bass heavy song, the guitar on the verse can do various things (strum **Bm**, progression **Bm A F#m Bm**, or **Bm** hammering strings 2/3 on 9th fret or string 4 on 4th.)

[Intro (Guitar **Bm**) (Bass **Bm A F#m E**)(4x)]

Bm (A F#m Bm [guitar can play this])

I ve been a heavy handful to hold
Like rain slipping through your fingers
You ve been taught to handle it all
Most people have already walked away

Bm (A F#m Bm)

G F#m

Our storms have taken a toll on you
Can you still weather me? (**G F#m**)

Bm (A F#m Bm)

I want so much to fill you up
But your cup is full of me
I ve left a bitter taste on you
But you say bitter sweetly

G F#m

Breathe in, Be safe with me for a while
Lay here and take some time (**G F#m**)

G

I see you re tired and wasted so

[Chorus]

D G A G
Hold on to every little piece of my love (woah-oh oh oh)

D G A G
Just hold on to every little piece of my love (woah-oh oh oh)

Bm

Hold on

Somebody s gonna make a promise to you (**Bm A F#m Bm**)

And somebody s gonna let you down
Nobody s gonna love you like I do
Nobody s gonna look so sweetly

Don t go just stay with me for a while (**G F#m**)

Lets try to make some sense of it all (**G F#m**)

I see you re tired and wasted so (**G**)

[Chorus]

Bm A G

[bridge]

Bm A G

Take me and break me When you re feeling dead inside

(build me up and hold on)

Bm A G A D

And clo-----ose all the lines To the times that we were living it all wrong

D A D A

D G A G

Just hold on to every little piece of my love (woah-oh oh oh) (4x)

--- Every little piece of my love (2x) [End on A]
