

## Family Tree

### Sivu

This is how I play it though I think Sivu plays his guitar a 1/2 step tuned down capo 8

but who really feels like tuning down their guitar?

\*Capo 8 or whatever suits your fancy\*

Across tightropes and stones  
I found God as he speaks in tongues  
For the whole world to see  
He found our cure but then lost the key  
At least the damage is done,  
And now we wait to be swallowed by the sun

I guess Heaven ain't the safest place  
As I'm drowning down the river  
I'd do anything to go back

Guaranteed to deliver

**Em C**  
Make an exception and then I'll follow the rule

Cause I'd do anything to go back  
I'm begging you please to reconsider,

Consider, consider

We've been making trails in the family tree  
Burning our own small piece of history  
Promise me that you won't forget me
