Green Bottles
SIX60

Heey, Uhm I decided to put this tab up because I realized there was no others so I
learnt the song so others can enjoy this song as much as I do :) ! So this song is usually
played in bar chords but don t have to be . Enjoy !

No Capo

[Intro]
F G Am G

Mmm
F   G   Am
Now I m stuck inside this motion
    G
I cannot control
F   G   Am
Feels like the waves of the ocean
    G   F
On top of me roll
          G   Am   G   F
So can I come up for air
              G   Am
There must be somebody swimming near
G   F
To pull me up

      G   Am G F
I can t breathe down here
          G   Am   G   F
Well, just long enough that I lose my fear
      G   Am   G   F
That I won t come up again
          G   Am   G
How I ll sink to the bottom of what I am
    F   G   Am   G
 F
At least I ll go down with a drink in my hand
          G   Am   G   F
Well maybe that was the problem it all began, whoa
          G   Am   G   F
Said, I m addicted and I can t change
          G   Am   G   F
The path I walk, it remains the same, mm, mm
      G   Am   G   F
But if I get swept away playing these games
      G   Am

```
Remember all that I used to be
    G         F   G   Am   G      F
Not what I became, mmm

        G                   Am
Now I m falling to the bottom
        G              F
Of the hold on my head
        G                       Am
We ll share the weight of my thoughts
            G             F
Or are they better unread
        G           Am    G      F
Can you help me forget
                G               Am       G
There must be somebody swimming near
            F
To pull me up

        G           Am    G      F
I can t see down here
        G                   Am                      G
But the road is laced with checks and stops at every bend
    F                   G                       Am     G    F
But I mma go down with a drink in my hand
      G                   Am           G    F
Maybe that was the reason it all began, whoa
            G                       Am      G    F
And I m addicted and I can t change
            G                       Am     G     F
The path I walk, it remains the same
        G           Am    G           F
And if I get swept away playing these games
        G                   Am
Remember all that I used to be
    G           F    G Am G F
Not what I became, mmm
            G                   Am
Remember all that I used to be
    G           F    G Am
Not what I became, mmm

Thanks,
Naomi :)
