

**Suddenly**  
**Skrewdriver**

Suddenly

**C**            **G**            **D**  
We live in changing times  
**C**                            **G**            **D**  
When certain thoughts are now a crime  
**C**            **G**                            **D**  
Power flows through an evil pen  
**C**                            **G**            **D**  
And freedom s light is growing dim

Chorus:

**A**            **E**                            **G**                            **D**  
One day if suddenly, I m forced to take my leave  
**A**                            **E**                            **G**                            **D**  
Will you still carry on, with the things that we believe?  
**A**            **E**                            **G**                            **D**  
One day if suddenly, they take my life away  
**A**            **E**                            **G**                            **D**            **A**  
Will you still be fighting to win a bright new day?.....

The people who ve stood against us  
They seem to be above the law  
With the power to listen into private moments in our lives  
And the power to come kick down your door

Chorus X 2

Our strength has come from ideals many years old  
A strength that has survived within our blood  
A strength our foe has recognised, and sworn to drag it down  
He wants to drag our people through the mud
