

**Wherever You Go  
Skydiggers**

[Intro]

**G C Am D G**

[Verse]

Wherever you go  
Please take me with you  
I want to go with you

[Verse]

Whatever you do  
Won't you include me  
I've got something to say

[Verse]

If I make you nervous  
It's just something  
That I sometimes do

[Verse]

If I seem distracted  
Unhappy, know  
It's not because of you

[Verse]

And as you walk away please  
Don't be scared  
By everything I said

[Verse]

I let my mouth run on

And then I let it  
**D** **G**  
Spill all over you

[Verse]

**C**  
I guess I got your answer  
**Am**  
Faster  
**D** **G**  
Than I thought I would

[Verse]

**C** **Am**  
This is no disaster  
**D** **G**  
But neither is it good

[Verse]

**C**  
I had a lot to say  
**Am**  
I said too much  
**D** **G**  
I couldn't shut my mouth

[Verse]

**C**  
It just got out of hand  
**Am**  
It all slipped out  
**D** **C**  
And then you slipped away

[Bridge]

**G**  
But it's not forever  
**Am** **D** **G**  
Nothing like this ever lasts more than a day

[Instrumental]

**G C Am D G C Am D G**

[Verse]

**C**  
Wherever you go  
**Am**  
Please take me with you  
**D** **G**  
I want to go with you
